CHANGE OUR FUTURE BY INNOVATION

**"A future where everyone is connected to the world"**

Even before becoming an NPO, Nakayoshi Gakuen accompanied more than 100 Japanese people to overseas activities and worked together locally. From 5 years old to seniors, literally "anyone" can work abroad.

Now that the SDGs are being important, people all over the world are required to take actions. The world could not be changed by experts alone. The world is not someone's, it's ours. Nakayoshi Gakuen is thinking about various projects and working with many friends to become a bridge between Japan and the world.

We create our future by innovation. Let's create our future together that is peaceful and makes everyone smile!

### EDUCATION

### PEACE

### FUTURE

# 01 EDUCATION

We have lessons in many countries, many areas. Our lesson is no border. For children, women, street boys and girls, children soldier, people in refugee camp, anyone who want to study we teach interesting lessons.

# LESSONS for ALL

NAKAYOSHI-GAKUEN

**“Education is the most powerful weapon we can use to change the world”**

**Even if you want to do your best but can't do because of barrier you can't beat, we support those who want to beat any barriers all over the world.**

## OUR LESSONS

1

**Science class project using cotton candy**  
We use cotton candy to teach “state change”.  
Everything around us is a learning material.

2

**Science class project using a black light pen**  
We use black light pens to teach “what light is”.  
Everything around us is a learning material.

3

**Mathematics Subject Teaching Method Project**  
We introduce how to teach subjects. We try to  
build high quality education, teaching both  
students and teachers.

and more...

# NAKAYOSHI LESSONS.

Education is our  
passport to the  
future

We have  
dreams

Intelligence plus  
character — that is  
the goal of true  
education

# 02 HEALTH CARE

We carry out health and medical promotion activities in the poorest areas of each country. Building a healthy body is one of the major goals of education.

# HEALTH CARE EDUCATION

NAKAYOSHI-GAKUEN

# SAVE OUR HEALTH

You can prevent the disease before it develops. It is the power of education that makes this possible. It's the cheapest, foolproof way to save lives.

# NAKAYOSHI HEALTH CARE

Preventive medicine course  
for anyone

Washing hands and brushing  
teeth habits

Providing medical supplies to  
medical institutions

Implementation of classes to raise  
interest in health through biology  
and chemistry

# NAKAYOSHI LESSONS.

Exercise is the key  
not only to physical  
health but to peace  
of mind.

A feeble body  
weakens  
the mind.

Calm mind brings  
inner strength and  
self-confidence, so  
that's very  
important for  
good health.

# 03 FOOD AID

We NAKAYOSHI-GAKUEN  
provide food assistance to  
refugee camps,  
orphanages, and poor  
areas.

War and poverty deprive people of the most important happiness of eating. So we support food, delicious food.

# FOOD AID

Delivering the happiness of eating  
safe and delicious food

We NAKAYOSHI-GAKUEN use delicious  
Japanese ingredients to provide  
delicious and nutritious food to people  
around the world. We can make  
anyone happy with our food.

# NAKAYOSHI LESSONS.

All sorrows are  
less with bread..

Food is the  
moral right of all  
who are born  
into this world.

Cooking is at  
once child's  
play and adult  
joy. And  
cooking done  
with care is an  
act of love.

# NAKAYOSHI LESSONS.

Peace begins  
with a smile.

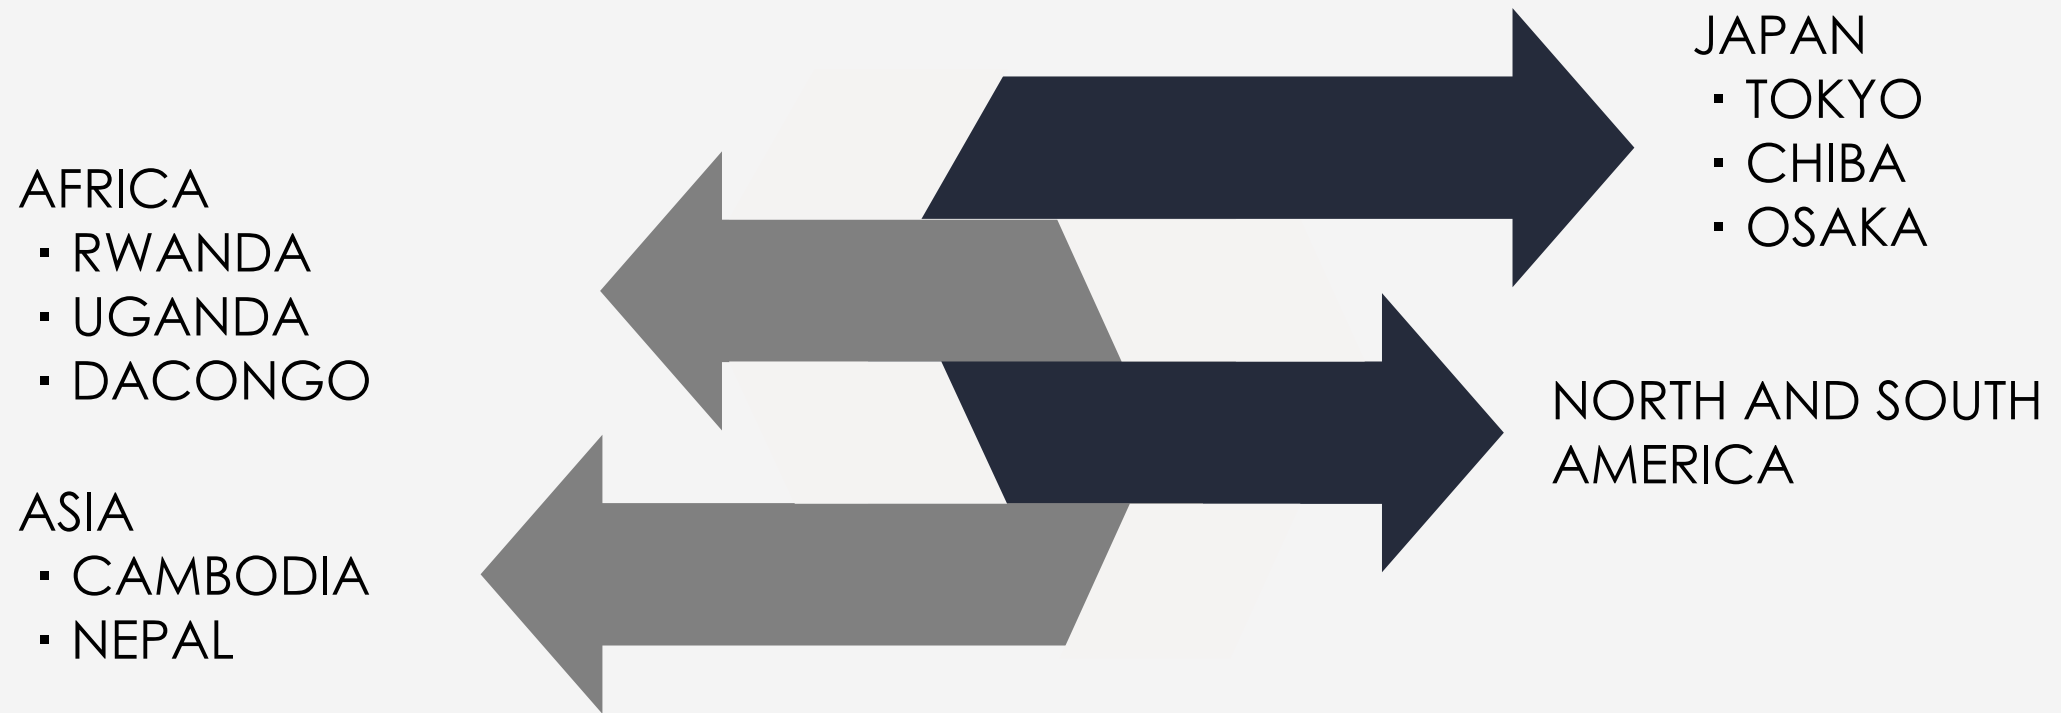

There is no  
path to peace.  
Peace is the  
path.

Peace cannot  
be kept by  
force; it can  
only be  
achieved by  
understanding.

YURI

I am committed to a sustainable future by making products from recycled materials, helping lower-income communities with the sales, and promoting their independence through intermediate care and educational support.

## NAKAYOSHI ZAPSAP PROJECT

The Democratic Republic of the Congo is the largest country in sub-Saharan Africa. The eruption of the Mount Nyiragongo volcano in May 2021 forced more than 364,000 people to flee their homes in Goma and surrounding areas.

This volcano Eruption is the reason why we are here now. The devastation that occurred created an immediate need for action. The people needed food, water, and medical care which we carried in our suitcases. That was the start of our journey with Goma.

# ZAPSAP PROJECT

We are uniting the world with great traditional  
craftsmanship to realize a sustainable world.

MEXICO ----- JAPAN ----- DRCONGO

Water became our next challenge which pushed us to develop sustainable, durable, and simple shoes that the women and children could wear to protect their feet from the ragged ground. They are forced to walk for miles to get a small amount of water that will only last one day.

## NATSUMI

We humans can innovate with learning and love, no matter what problems we face. Our dreams come true.

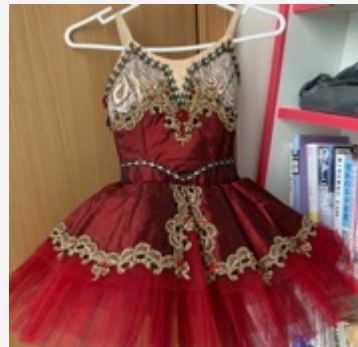

## LITTLE SAPEUR PROJECT

Doing fashionable, anti-war, anti-violence activities in Africa with children in Congo.

In the war-torn Democratic Republic of the Congo, NATUSMI, who continues to support refugees with the proceeds from the production of picture books, thought of bringing peace to the world through the power of her love of fashion.
